## About me

I am 22 years old and I live in Brussels, Belgium. I am passionate about programming and I regularly code my personal projects. I am self-taught since 7 years.

## Interests

- Problem Solving
- Coffee
- Video Games
- Technologies
- Build projects

## Languages

French (Fluent), English (Basic)

## Career objective

What is important to me in my next job is a culture of passion and opportunities to learn and develop my skills from a technical standpoint. I am a very open-minded person and have a great thirst for learning new things. I would like to start my own business after acquiring more skills.

## Professional Experience

From 03/2020  
To 04/2021  
Bruxelles

### Developer full-stack

The skif Agency - Plain time

I worked in a young start-up, which allowed me to learn a lot. I was able to lead a small team and gain a lot of project management experience. We mainly used JavaScript with TypeScript.

- Implementation of an online shop using the MERN stack.
- Improvements in web referencing and speed.
- Creation of a meal delivery architecture..
- Development and management of an online shop using a content management system (Wordpress).

From 02/2018  
currently still..  
Bruxelles

### Freelance coursier

Deliveroo

Just allowed me to develop my projects in my free time
